BUDDHISM FOR DEVELOPMENT PAILIN BRANCH

REPORT OF BASELINE STUDY ON COOPERATIVES' BUSINESS

Date : 25.June.2015 – 21.July.2015

Place : Cooperatives in Pailin City and Salakrao District, Pailin Province.

Mission Participant : Mr. Nop Paul and Mr. Thun Tan

Purpose:

To gather the agricultural business information of ACs and members in order to analysis and identify the problems or gaps and keep for baseline-data. Then the facilitation on dealing the resolvable problems of ACs will be compared to the baseline for seeing the changes and achieve the program goal.

Expectation:

- Agricultural cooperative will understand more on how to do the agri-business.
- AC will make a new business for their cooperative in purpose to increase more money.
- AC will research on basic of marketing for selling their output by getting more results, both quantity and quality and also get high price from free market.

Summary Activities and Result:

At the beginning of the baseline study survey, Mr. Thun Tan, BFD/PLN coop project field coordinator and Mr. Nop Paul, BFD/PLN Branch Manager welcome to cooperatives and then Mr. Thun Tan made an interview with cooperative leader about the process of their cooperative, such as the purpose of establishment cooperative, number of cooperative members, shares, capital, amount of the size of land, technical of planting crop, crop maintenance, the result that they got from their businesses and especially about expectation of cooperatives in using credit loan from BFD/RCO for cooperative's business in the past, now and the future. During the interview, cooperative answered with what they used to do. All the answers from cooperative we wrote down in the questionnaires. Mr. Thun Tan also encouraged cooperative leaders and members to struggle and make more business by starting from now to the future.

Many of members of cooperatives do the business by planting cassava. They decided to plant cassava because of market requirement. They answered all of the questions in the questionnaire such as: The size of farm land, kind of crops that they have, method in planting crop, amount of expenditure in planting for a season, kind of fertilizer they use for their crop, the result that they got from cropping, amount of credit loan that they borrowed from AC, and the useful of register as AC member.

1/. Reaksmey Phum Rongchak Cooperative

June 25, 2015
